

DENTAL MAVERICKS, MOROCCO

OBJECTIVES	MEASURABLE INDICATORS	MEANS OF VERIFICATION	DOES IT TICK ANY OF THE 6 AREAS OF INTEREST OF RI?	GENERAL QUESTIONS	FURTHER QUESTIONS
<p>Goal: wider problem the project will solve</p> <p>Children receive dental treatment and education on how to take care of their teeth. Prevention is very important. A lot of health problems come from bad teeth. Additionally, it is cheaper to prevent than to fix. A healthy community also contributes to economic prosperity.</p>	<p>Quantitative indicators or qualitative ways to measure goal</p> <p>Number of children treated and educated.</p>	<p>Cost-effective methods. Can we visit? What reports can be provided that enable us to measure? Is monitoring possible at all or do we have to “believe”?</p> <p>We can visit. Already did. Members of our club even helped treating children.</p>	<ol style="list-style-type: none"> <li>1. Promoting Peace</li> <li>2. Fighting Disease</li> <li>3. Providing clean water</li> <li>4. Maternal &amp; Child Health</li> <li>5. Literacy &amp; Basic Education</li> <li>6. Economic &amp; Community Development</li> </ol>	<ol style="list-style-type: none"> <li>1. Is the Project Possibly Eligible for A District or Global Grant?</li> <li>2. Does the Organization have a separate bank account for the Project?</li> <li>3. Does the Organization give recognition to donors and if so, how?</li> <li>4. What does the recipient organization contribute?</li> </ol>	<ol style="list-style-type: none"> <li>1. Is it apparent that the organisers have identified all the resources (people, materials, permissions etc.) likely to be required; and provided evidence that all such resources can be obtained as and when needed? If so, are there cost estimates for each such resource and do they look reasonable?</li> </ol>
<p>Purpose: Immediate impact on target group or area. I.e. the change or benefit expected from the project</p> <p>Children’s teeth are fixed</p>	<p>Quantitative indicators or qualitative ways to measure which difference does our contribution make to the recipients</p> <p>Comparing numbers (before-after) of children with tooth problems, rotten teeth...</p>	<p>Cost-effective methods. Can we visit? What reports can be provided that enable us to measure?</p> <p>YES. Dental Mavericks is an established charity with evaluation and monitoring measurements in place</p>		<ol style="list-style-type: none"> <li>5. What makes the project sustainable and possible replicable? Are the recipients involved into the development and implementation processes of the project? Local dentists can take over when project is implemented.</li> </ol>	<ol style="list-style-type: none"> <li>2. Have the organisers made a reasonable attempt at establishing the likely main risks to the execution and/or success of the project and, if so, have they established how such risks can be avoided and/or mitigated?</li> </ol>

<p>Outputs: direct results expected from the project that serve the purpose</p> <p>Children's teeth are fixed</p>	<p>Quantitative indicators or qualitative ways to measure outputs</p> <p>See children again after a while and check. Speak to dentists that take over once our RC left.</p>	<p>Cost-effective methods. Can we visit? What reports can be provided that enable us to measure?</p> <p>YES. Dental Mavericks is an established charity with evaluation and monitoring measurements in place</p>		<p>6. Do recipients have ownership of the project once implementation and funding are finished (if not so, the project is NOT sustainable).</p> <p>Teaching the children makes the project sustainable.</p>	<p>3. Have the success criteria of the project been defined (i.e. has someone completed the statement "this project will be deemed to have been successful if/when...")?</p>
<p>Activities: Tasks to be done to serve the purpose</p>	<p>Input: project budget. Cash and time put in by Rotary Club</p> <p>3,600€ in 2017/18 to buy 6,000 dental bags to educate children and provide material to take care of teeth &amp; 3 dental chairs to provide treatment.</p>	<p>Outturn. What was achieved with our input?</p>			<p>4. Is there a defined project management framework in place and, if so, how (and by whom) will the progress of the project be monitored against it?</p> <p>Dental Mavericks is an established charity with evaluation and monitoring measurements in place</p>
